

Why HSCN? The answer is simple – a host of benefits for Canada’s Healthcare Supply Chain Professionals!

Be a part of Canada’s premier national healthcare supply chain organization!

- Reduced rates for supply chain related **forums, professional development events, website job postings, and HSCN’s annual conference.**
 - Your participation will enable you to meet with customers and colleagues to learn more about their needs and gain access to new information about projects and programs that benefit you directly.
- Your organization’s **profile will be enhanced** through a variety of programs generated to promote the supply chain industry within the healthcare sector.
- Gain access to **new business opportunities** with major national healthcare companies.
- Gain access to **valuable market information**, trends and developments through white papers, industry surveys and special reports posted to our document library.
- Obtain knowledge of **Federal and Provincial Government programs** and policies that pro-actively impact our industry.
- Reduce your risks in adopting **new technologies, products and services** by learning from your colleagues and working with them to develop industry standards, demonstration projects, training programs, etc.
- Learn about **leading business practices** to support growth and change in your organization, as you meet the challenges of market demands for higher performance within funding constraints.
- Receive **news and information** about developments in and around the supply chain industry, through the HSCN website, through email information bulletins, and through the HSCN quarterly e-newsletter.
- Gain market exposure, access to partners and customers, enhanced credibility in the market, and more by putting your organization on the Internet, through the **HSCN Web site.**
- Participate on **industry Task Forces** where you will help shape industry initiatives in technology, supply network performance, professional development, and others.
- **Network** with a significant number of supply chain provider and vendor companies that are already participating – your industry colleagues.
- You will recognize the **proud heritage** of the supply chain industry, with a sense of accomplishment from contributing to the vitality of our industry.

**SUPPLY CHAIN IS
A STRATEGIC
PATIENT CARE
FUNCTION**
